Florida Division of Emergency Management

State of Florida
Special Needs Registry

Personal Survey Form

The Florida Division of Emergency Management, in coordination with each local emergency management agency in the state, developed a registry to allow residents with special needs to register with their local emergency management agency to receive assistance during a disaster. The statewide registry provides first responders with valuable information to prepare for disasters or other emergencies.

Providing as much information as possible will allow emergency management officials to plan accordingly for future disasters. You will be e-mailed periodically to verify the information provided is correct and to make any necessary changes. Individual surveys will be archived after one year if not verified.

Why should you register?

- ☑ To receive important information from local emergency management officials about evacuations.
- ☑ IT MAY SAVE YOUR LIFE!

Florida Statute 252.905 declares any information furnished by a person or business to the Florida Division of Emergency Management, for the purpose of, being provided assistance with emergency planning is exempt from F.S. 119.07 (1) and s. 24 (a), Art. I of the State Constitution. Information provided through the FL Get a Plan website for the purposes of building a family and/or business emergency plan is therefore exempt from public records requests made of the Division and is only used for the express purpose of allowing visitors to this website to build and maintain family and/or business emergency plans.

Completing the Florida Special Needs Registry does not automatically qualify the individual for a special needs shelter. Additional information will be provided by your local emergency management agency regarding sheltering.

Floridians are encouraged to prepare for all types of emergencies. Building an individual or family emergency plan is the first step. During an emergency, the government and other agencies may not be able to meet your needs. You should be prepared to take care of yourself and loved ones for a minimum of 72 hours. Those individuals with special needs are encouraged to identify an emergency support network and to build a disaster supply kit. Registering on this website is not a guarantee that emergency officials will be able to assist you in an emergency.
